

Noorullah Nasrullah

Software Engineer - Singapore

nasrullah01n@gmail.com | nasnoor.dev | github.com/Coeeter | linkedin.com/in/noorullah-nasrullah

NUS Computer Science undergraduate with 14 months of software engineering experience at GovTech Singapore. Background spans production government systems, retrieval infrastructure and open-source developer tooling.

SOFTWARE EXPERIENCE

Software Engineering Intern at GovTech Singapore

Apr 2023 - May 2024

- Delivered the frontend for the production replacement of the Ministry of Manpower's legacy iOSH licensing and audit system, contributing from requirements and design review through implementation and rollout.
- Joined a newly formed AI team for the final five months and built the document ingestion pipeline for a retrieval-augmented assistant used by ministry staff, parsing source files, extracting content and feeding it into the assistant's retrieval pipeline.
- Proposed and built 7Patches to replace an ad-hoc database patch and query process with reviewed requests, approval routing, execution logs and a searchable audit trail; led a small team of interns through delivery and received the DBS Bank Project Award.

SELECTED PROJECTS

AnimeKaiser

2026

Self-hosted anime library with two-way synchronisation across AniList and MyAnimeList. Bun, Effect, TanStack Start, Drizzle, PostgreSQL.

- Made outbound changes durable and retryable using Postgres LISTEN/NOTIFY, avoiding a separate queue service.
- Separated source resolution behind a typed RPC boundary; added passkey authentication and end-to-end tests running in CI on every deploy.

ClickToEat

2022 - 2023

Restaurant review platform developed across web, API, Android and Flutter coursework. Kotlin, Jetpack Compose, Hilt, Google Maps SDK.

- Built the Android client as a multi-module application with 43 unit and instrumented UI test files across JUnit, Compose Test and UI Automator.

drizzle-cuid2

2024

Small TypeScript utility providing CUID2 column helpers for Drizzle ORM across PostgreSQL, MySQL and SQLite; published on npm.

EDUCATION AND SERVICE

National University of Singapore

2026 - 2030 (expected)

Bachelor of Computing in Computer Science

Ground Response Force Officer at Singapore Police Force

2024 - 2026

Full-time National Service, Airport Police Division

Temasek Polytechnic

2021 - 2024

Diploma in Information Technology - GPA 3.86
Eleven distinctions; Director's List (top 10% of cohort).

SELECTED AWARDS

WorldSkills Singapore - Bronze Medallist

2023

Mobile Application Development

iNTUition - Best Pre-University Award

2023

EmailGPT, a Gmail extension for drafting replies directly in the composer

SKILLS

Languages - TypeScript, Go, Kotlin, Python, Java

Technologies - React, Node.js, Bun, PostgreSQL, Docker, AWS
